Skills

- Language :- HTML, CSS , JavaScript, php
- Framework:- BootStrap
- Database :- MYSQL
- Version Control :- Git
- Tools :- Github

Objective

As a fresher frontend developer proficient in HTML, CSS, and JavaScript, the key objectives include mastering core languages, implementing responsive design, ensuring cross-browser compatibility, embracing UX design principles, adopting version control, continuous learning, portfolio building, collaborative skills, and fostering a problem-solving mindset for effective contributions to web development projects.

Languages

- English
- Hindi
- Odiya

My Hobby

- Cooking
- Programing
- Bodybuilding
- Gaming

Projects

- **Weather App**
  Introducing my weather app project, a seamless fusion of design and functionality. Crafted with HTML, CSS, and JavaScript, this application offers a user-friendly interface to explore real-time weather information effortlessly.
- **Delivery management system**
  My delivery management system, crafted with Java Swing for an intuitive frontend and powered by MySQL for robust backend functionality, ensures seamless order tracking and efficient logistics management. A user-friendly interface and a dynamic database combine to optimize the delivery process, enhancing overall operational efficiency.
